<p>Public Comments:</p> <ul style="list-style-type: none"> • Senator Darwin Booher – We are the 138th out of 157 townships that he has visited this year. Made us aware of changes that will be happening within the senate due to terms being limited out. Discussed the state budget and how the monies are divided up between fed, restricted money, gen fund, school aid, ect. Talked about OPED and how that will impact future decisions regarding the state budget. Touched lightly on road quality and endowments to universities. • Mike Cool- Gave us an overview of the audit done by Baird, Cotter and Bishop. Focused on pages 5 & 8 of the Basic Financial Statement Report and explained that there were no major concerns. He encourages the continuance of rate and infrastructure studies to be done with Missaukee Sanitary Drain #2. Wanted us to keep a close eye on repair, replace and improvement within the sewer line items. When we move forward with the septage receiving, proper planning of extra funds is necessary for operational purposes. He feels that the Treasurer and Clerk have improved on the understanding of the new BS&A program. • Rick Lantz – Wants to know why they weren't notified as a subdivision about the possibility of a foot bridge in the River Woods Estates subdivision. Who will be responsible for hurting themselves there? Believes that we can post 	<p>PUBLIC COMMENTS</p>

<p>rules and people will still not follow the rules.</p> <ul style="list-style-type: none"> • Leslie Gillow – Believes the foot bridge would only cause a disturbance to the area. They have rules in their subdivision that they have to follow, including the allowance of only 2 dogs. Feels that the North Country subdivision has plenty of their own walking room. They purchased their property because of the seclusion & feels that we would be taking that away from them. • Mimi Zwolak- Explained the Rec Plan, how it came about, the reasoning behind it. Included that this plan was started 3 years ago. There is information on the website, and has been information in the Sentinel. Asked those in attendance if any of them would like to be a part of the Rec Committee. • Susan Wenzlick- Has privacy concerns due to living on a dead end. Worried about encroachment and the urination of fisherman on her property. She currently cleans the river and picks up after fisherman. Doesn't feel that it will enhance the neighborhood. Cannot justify the cost. Explains that we will not get a grant, as she has experience with grants and the main reason for this is that there is no public land in that location and the proposed piece is in the middle of a neighborhood. Would like the letter she submitted to the Clerk added to Correspondence. • Bonnie Baird – Asks that the Rec Committee considers the privacy of homeowners with any future projects. Wants to know how to find out information or projects going on within the township. • Gary Gunnerson- He is for the foot bridge due to safety reasons. Feels that there is danger on the higher traffic roads for anyone walking or biking. • John Beck- The Fish Survey on the township website is not working properly. Information submitted is not making it to the DEQ office. 	
<p>Correspondence:</p> <ul style="list-style-type: none"> • Nathan Newell will not be fertilizing the Oak Grove cemetery at this time due to the condition. • Susan Wenzlick letter. • Natalie Davis (Council on Aging) & Mike Kelso (Director YMCA) are trying to get together a Senior Fit program for Missaukee County residents. Getting more fire truck quotes, not satisfied with current quote. Delinquent fire runs will be filed away.</p> <p>3.
