

Lake Township, Missaukee County – Assessing Office

November 2021, Report to the Township Board

Sales Summary 2021 for the year 2022 Assessments: The Lake Township 24 Month Sales Study continues a decade-long trend of rising market values in the residential class. Take a moment to review the unprecedented number of township sale ratios, significantly below 50%, during the year 2021. The estimated required increase to the 2022 residential assessments is approximately \$11,613,000. Nationally, the CoreLogic Home Price Index again recorded another most significant year-over-year gain from September 2020 to September 2021 of 18%. The CoreLogic HPI Forecast anticipates increases to moderate into the 2% range for next year, September 2021 to September 2022, primarily due to unaffordability. Black Knight's Mortgage Monitor highlights unprecedented home equity with residential loan-to-value ratios up 40% from last year, driving cash-out refinancing, providing relief to homeowners in forbearance, and limiting the volume of distressed properties on the market. With the end of the 3rd quarter of 2021, Marcus & Millichap's national research identifies a decrease in vacancies and a return to increasing leased spaces of office, retail, and apartments. Lumber was the first of the critical construction materials to moderate as the lumber price index fell by 23 percent from its peak in May. All three research firms highlight the tight supply of new homes, especially first homes, is a long-term problem.

The sales summary reports and projections presented here contain estimates intended to facilitate discussion of market trends. Sale & assessment detail is available at the township website with the BS&A software link, the sale & assessment map, record cards & valuations statements. This document does not replace official county-issued sales study Forms L-4015 and L-2793.
